

AARP TAX PREPARATION FOR 2021

By Carol Strong

Our tax assistance service will be starting later than we had hoped. As of now we expect to begin on February 15 on a very limited basis.

Our two preparers, Joan Huseh and Dale Aaberg, will be preparing tax filings remotely due to COVID restrictions.

Therefore, contact with the taxpayer will be through computer and phone contact. However, the interview and gathering of documents, as well as the signing of completed returns will require two brief visits at the Center.

Initially we will serve those who have rent credit and the simplest filings. Homeowners with property tax refunds may be scheduled after property tax statements are received for 2021 -- typically in mid-late March.

If your tax situation is very basic we may be able to serve you. Call the Center at 320-762-2087 for more info on scheduling an appointment. For those we are able to serve, we will schedule a time for the interview and collection of documents at the Center.
